ISSUELESS PARTY.

Dazed Condition of Democratic National Committee.

FIND THEMSELVES IN SCRAPE

By Clinging to the Personal Fortunes of One Man-Their Conference at Chicago Was a Ghastly Ceremony. Bryan Has Become Absurd in the Eyes of the American People.

New York Times (Ind. Dem.): The Democratic national committeemen are vidently a bit dazed themselves at the scrape they have got the party into by hitching to it the personal fortunes of one man. Their conference at Chicago was a ghastly ceremony. There were no ideas in their heads, and there was no courage in their hearts. When they talked about the plans of the campaign for next year, and the issues upon which the fight for the presidency is to be made they made an exhibition of their hopeless condition that would be pitiful it it were possible to feel pity for blundering incompetence.

We are told that it was the unanious opinion of the committee that the Chicago platform of 1898 must be re-adopted "in its entirety," with antitrust and anti-imperialist planks added. The structure and substance of the Chicago platform is free sliver coinage. Take that away, and there remains only gelatinous mass of Socialistic protoplasm that cannot be made to stand alone from the sustaining framework of free sliver. But it is perfectly appar-

plasm that cannot be made to stand alone from the sustaining framework of free sliver. But it is perfectly apparent that the Democratic committeemen and managers want to poke the free sliver issue out of sight into the background, where it will make do trouble during the canvans next year. They have sense enough to see that issue will defeat them if it is made prominent. They have not as yet shown the capacity to formulate any practicable new issues to take its place.

They all talk about opposition to the trusts and to imperialism. Upon those subjects their ulterances ring hollow and false. There is no more spirit in them than there is in the remarks of an imperfectly educated parrot. A musty and repetitious flavor pervades everything they say about "new issues." They do not believe in their efficacy. They know as well now as they will know a year from now that they cannot restore the Democratic party to power and the confidence of the people by an assault upon the trusts and upon the policy of the administration in regard to our new possessions. Anti-imperialism, indeed, is already in its last gasp. The elections showed that the people refused to take any interest in it. The wiping out of Aguinaldo's insurrection and the endeavors of our millitary authorities in the Philippines to establish civil government in the cities and towns where they have succeeded in restoring order and obedience to law will quite make an end of the issue, and of talk about it before the candidates for nominated.

As for the trusts, it has been many times pointed out that the diabolical couning of the monsters in paying high wages to their men would in a very large measure paralyze the campaign attacks upon them. We are not aware to which party Mr. Samuel Gompers belongs, or whether he belongs to either, but if he is a Democrat, it is evident that he is not in the confidence of the present managers of that Bryanized party. He appeared as a witness before the industrial commission at Washington, the other day, and gave testimony which

Speaking of the union label, Mr. Gomers said that there were thirty-seven iffigent organizations now using the beat and that it was growing to popularity very rapidly. He defended the oyeoit as a legal and proper weapon or the working man holding that what a had a right as an individual to do e was justified in uniting with others aking of the union label, Mr. Gom-

Mr. Gompers said that organized labor viewed trusts simply as their employers. There had been cases in which the organization had ben benefitted by combinations of capital. It was too early to decide whether men would be more steadily employed by the trusts than by other employers. He had found that these combinations have more influence in securing legislation than had unorganized capital.

in securing legislation than had unor-genized capital.

He took a position against co-opera-tive schemes, saying that experience had proved that laborers secured no greater advantages under them than under the wage system. He had no fear of the future for organized labor. The condition of labor was better to-day than ever before, and he attribut-ed the improvement to the influence of organized labor.

organized labor. Now, coming from the president of the American Federation of Labor, this testimeny must be considered an authoritative presentation of the views of organized labor. It is highly significant in two respects. In the first place, it

union. Its chief use is to destroy or bring to terms concerns that employ non-union labor. Moralists and Popu-lists will probably not contend that a re-sort to the boyout is noy more defend-ble than seegst rebates, cutting releas, the buying and closing of rival mills, or any of the other means which the man-aness of trusts employ to kill off com-petition.

nanired tabor is not only the bigrest trust, but it about the oldest. The ware-carrers lone and learned the advantages of combination. Their condition has been immensely bettered by the fermation of labor unions, Organization is a norfertily legitimale, whey and sound method of protecting their interests and their common welfare. The

10 cents and 25 cents, at all drug stores.

combination and concentration are ben-eficial to the concerns that employ them. In many cases they perceive that it is only by the saving effected by combina-tion that high wages can be maintained. They are too sensible to quarrel with their bread and butter because a little group of very inexperienced politicians, hard up for campaign issues and loaded down with an impossible candidate, have raised the cry: "Down with the trusts!"

RAPE

| A comparison of the Democrats will not support Bryan because of his advocates and respectively in the disgraceful polley of scuttling out of places where we have incurred serious themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either as employers or embackle business from seeking profitable ways of employment; they are in trusts themselves, either are not enough, even with all the Populist forces added, to greferred and Bryan's issues and principles will drive away, there are not enough, even with all the Populist forces added, to greferred and principles will have been abourd in the sight of the American people.

Relief in Six Hours.

Belief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by "New Great South American Kidney Cure." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by R. H. List, druggist, Wheeling, W. Va.

FINANCE AND TRADE.

The Features of the Money and Stock

Markets.
NEW YORK, Nov. 27.—Money on call steady at 54@6 per cent; last loan 5 per Prime mercantile paper 5466 cent. Sterling exchange firm, with actual business in bankers' bills \$4 86@4 86% for demand and at \$4 81@ 4 81% for 60 days; posted rates 14 82@ 4 82½ and \$4 87; commercial bills \$4 80. Sliver certificates 58%@59%c. Bar silver 58%c. Mexican dollars 47%c. Government bonds irregular State bonds inactive. Railroad bonds strong. People who bought stocks on Thurs-

day and Friday found the expected market for them this morning and availed themselves of the opportunity to sell out to a large extent. The subtreasury operations last week made it sufficiently obvious that a strong bank statement would be forthcoming on Saturday, and the new strength in the market on acount of Saturday's bank statement had therefore been discounted. Prices were opened high and the advance in Americans in London had

the appearance of being manipulated from New York for the sake of influence on the opening here. At all events the London market was depressed generally on the rise in the money rate and erally on the rise in the noney are and sold stocks here from the opening until long past the usual hour for cabling. Pennsylvania was an exception and was eagerly bought by London. This demand was largely responsible for the stocks rise of 4% per cent over Friday, during the first hour. It subsequently reacted and saved only 2% per cent of net gain. The high prices at the opening were the signal for very extensive realizing, which was most marked in the Baltimore & Ohlo issues. The opening price in the preferred ranged all the way from 85 down to 83%. There were occasional railles in these stocks, but newed and their close was near the lowest at net losses of 1% and 1% per cent respectively. Union Pacific showed the effect of profit taking and Sugar was obviously weak from the start on the street. These were sufficiently power-ful factors to decide the general course of the market. The heaviness became quite widely disseminated, as the day progressed, and many net losses of point or over will be observed. While the general course of the market was reactionary, some points of strength persisted. Manhattan, Federal Steel, American Hoop, Chesapeake & Ohio and Peoria, Decatur & Evansville rose and Peoria, Decatur & Evanaville rose from the steepeds. In the first place it reflects as general opposition to rusts and combinations of capital. The care is a general opposition to rusts and combinations of capital. The care is the full advance. Leather continued every creatic over a range of 5½ points and are well treated they so were as the full advance. The fast break in Sugar to 154 and the St. Paul statement for the labor which is the full advance and the st. Paul statement for the labor which is the full advance. The fast was found for the statement of the late weakness. St. Paul's labor as the fund and the had for fire a size of the fundament of the fundament

No afternoon report. Breadstuffs and Provisions.

Breadstuffs and Provisions.

CHICAGO—Wheat was weak to-day, influenced by lower cables, increase in the visible supply and forced December liquidation, and closed 369½c under Friday for May and ½6%c off for December. Corn, actuated by weakness of wheat, freer country offerings and poor demand, closed ½6½c lower. Oats closed a shade lower, and provisions were little changed from Friday.

The balance of trade in the wheat, corn, oats and provision markets is now in favor of May contracts.

Wheat evidently spent the holiday Saturday in getting weaker, for a decidedly feeble pulse was observed at the opening to-day, with May ½6½c under

Wheat evidently spent the holiday Saturday in getting weaker, for a decidedly feeble pulse was observed at the opening to-day, with May %6% ounder Friday at 68% 685%. Factors in the weakness were lower cables, forced December Hquildation and an increased visible supply of 1,836,000 bushels. The price held slightly above initial fisures on buying against puts, and some covering by shorts, but clung very close to the bottom until there was a cessation of the December Hquildation. With the removal of this pressure the market railed from the opening, but the loss on Friday was far from regained. May closed %6% to lower at 65% 665%. The steadiness of the Liverpool spot demand was a minor factor in the local reaction. Receipts at primary points were 2,122,70 bushels, compared with 1,563,73 bushels last year. Northwest receipts were 1,775,400 bushels, against 1,103,894 bushels a year ago. Two days' receipts here were 177 cars, 69 of which were graded contract. New York reported no wheat taken for export. Clearances for two days were 926,000 bushels. Lake rates went up %c.

days were \$25,000 bushels. Lake rates went up \(\)40. Corn was easy, with more or less liquidation throughout the session. Better weather for the movement of crops resulted in freer country offerings in addition to which the market was further weakened by the selling of futures by the west. The weakness of wheat was also a depressing factor. Local stocks decreased \$4,000 bushels, and the visible supply increased \$15,000 bushels. Clearances (two days) were \$15 cars and at primary points 761,200 bushels. The opening was at a loss from Friday of \(\)40 and at primary points 761,200 bushels. The opening was at a loss from Friday of 46%c. May ranged from 22%c to 22%c, closing %6%c lower at 32%c. December ranged from 31%c to 31%c, and closed %6%c down at 31%c. Oats held steadily, in view of the weakness of the other grain markets, supported by a good cash demad. Selling was on a small scale. The visible
